EDUCATION

CMR Engineering College

2022 - 2026

B.Tech. - Electronics & Communication Engineering | CGPA: 8.59 / 10

12th | Percentage: 96 / 100

10th | CGPA: 10 / 10

PROJECTS

Job Portal Web Application

Key Skills: Java HTML SpringBoot SpringJpa Mysql Thymelaf CSS

This is a simple web-based job portal developed using Java, Spring Boot, Spring JPA, MySQL, Thymeleaf, HTML, and CSS. The application enables job seekers to register, log in, and apply for job postings, while recruiters can create and manage job listings and view applicants. The backend uses Spring Boot, Hibernate, and JPA for robust ORM and smooth database operations with MySQL. The frontend uses Thymeleaf as a server-side template engine to render dynamic HTML pages, styled with CSS for a clean and responsive user experience.

Student Record Management System

Key Skills: Java Mysql SpringBoot Html CSS SpringJpa Thymle Thymeleaf

This is a simple web application built with Java, Spring Boot, Hibernate, JPA, MySQL, Thymeleaf, HTML, and CSS. The system allows users to add, view, update, and delete student records through a clean web interface. It uses Spring Boot for backend logic, Hibernate/JPA for object-relational mapping with a MySQL database, and Thymeleaf for rendering dynamic HTML pages. This project demonstrates basic CRUD operations, form handling, and smooth integration between frontend and backend.

ASSESSMENTS / CERTIFICATIONS

Java Programming Certificate

Web Development Certificate
